

Determinar el número de piezas fraccionarias más pequeñas que se pueden hacer a partir de la pieza más grande.

Respuestas

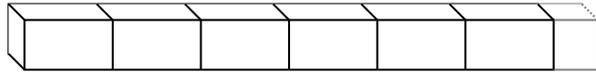

Ej)

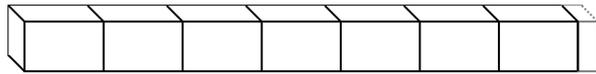

1)

2)

3)

4)

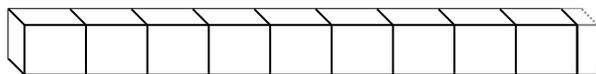

5)

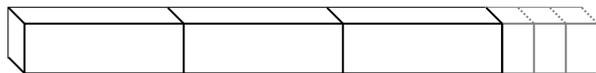

6)

7)

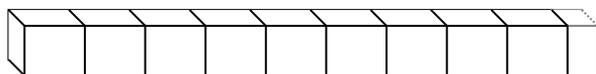

8)

9)

10)

- Ej. **33**
1. _____
 2. _____
 3. _____
 4. _____
 5. _____
 6. _____
 7. _____
 8. _____
 9. _____
 10. _____

Determinar el número de piezas fraccionarias más pequeñas que se pueden hacer a partir de la pieza más grande.

Ej) $8\frac{1}{4}$

1) $6\frac{1}{4}$

2) $6\frac{1}{2}$

3) $7\frac{1}{4}$

4) $3\frac{3}{5}$

5) $3\frac{1}{3}$

6) $2\frac{2}{5}$

7) $9\frac{1}{3}$

8) $3\frac{3}{5}$

9) $2\frac{1}{5}$

10) $9\frac{1}{2}$

Respuestas

- Ej. 33
1. 25
2. 13
3. 29
4. 18
5. 10
6. 12
7. 28
8. 18
9. 11
10. 19
